

Midwest Creation Fellowship — West —

The End of Human Evolution

**Dr.
Jerry
Bergman**

Do evolutionists really believe what they “preach”?

Renowned scientist, Dr. Jerry Bergman, will share documents from the peer-reviewed secular scientific literature, exposing quotes which say, or imply that human evolution is impossible.

He will also review why it is that molecules-to-man evolution is accepted by so many Christians, and the harm it has done to the church at large.

When: Tuesday,
July 11, 2023

Where: Family Life Christian Ctr.
25W560 Geneva Road
Carol Stream, IL

What:

Doors Open	6:30 PM
